ABOUT ME

Senior Mobile Application Engineer with nearly 8 years of experience designing, developing, and maintaining production-grade mobile applications using **React Native, Flutter, and Native Android**. Delivered **30+ production mobile applications** across healthcare, logistics, telemedicine, education, enterprise, fitness, social networking, document management, and utility domains. Strong expertise in mobile architecture, REST API integration, Firebase, Supabase, state management, push notifications, and third-party SDK integration. Proven ability to independently deliver scalable mobile applications from development through production deployment while collaborating with cross-functional Agile teams.

CAREER HIGHLIGHTS

- Nearly **8 years** of professional mobile application development experience.
- Delivered **30+ production mobile applications** across Android and iOS.
- Strong expertise in React Native, Flutter, Android, Firebase, Supabase, and REST APIs.
- Independently owned multiple production mobile applications.
- Experience across Healthcare, Logistics, Telemedicine, Education, Enterprise, Utility, and Social Networking domains.
- Integrated Firebase, Supabase, Agora SDK, WebRTC, Google Maps APIs, and third-party SDKs.
- Mentored junior developers and collaborated within Agile teams.

PROFESSIONAL EXPERIENCE

Trigma Solutions Pvt. Ltd.

Senior React Native Engineer

Apr 2024 – Nov 2025 | Mohali, Punjab

Technology Stack

React Native • Flutter • Redux • Redux Toolkit • GetX • BLoC

Firebase • Supabase • REST APIs

Agora SDK • FCM • APNs • Git

Key Contributions

- Developed and maintained production-grade Android and iOS applications using **React Native** and **Flutter**.
- Independently led the end-to-end mobile development of **Ufubo**, **Listkeep**, **MyKadett**, and **Doctome**, from feature implementation to production deployment.
- Collaborated on **MyKadett Partner**, **Telemedicine**, and **Boonuu**, providing technical guidance, debugging complex issues, and implementing new features.
- Integrated REST APIs, Supabase, Firebase Authentication, Cloud Firestore, Firebase Cloud Messaging (FCM), Apple Push Notification Service (APNs), and FedEx APIs.
- Resolved complex production issues related to **Agora SDK audio/video calling**, application logic, UI/UX improvements, and App Store release processes.
- Collaborated with backend developers, QA engineers, UI/UX designers, business analysts, and project managers in Agile development, while mentoring junior developers and supporting Play Store and App Store releases.

Webteasor Technology Pvt. Ltd.

Senior Mobile Application Developer

Sep 2021 – Aug 2023 | Zirakpur, Punjab

LANGUAGES

English	Proficient
Hindi	Native
Punjabi	Native

EDUCATION

Bachelor's Degree in Computer Application

PUNJAB TECHNICAL UNIVERSITY

2011 - 2014

Key Contributions

- Independently developed and maintained **Yaybor** and **Dental Clinic** mobile applications from implementation to production release.
- Contributed to feature development, maintenance, and production support for **Bistrochat** and **Nitrix**.
- Implemented secure authentication, user profile management, chat, follow/following, comments, and other social networking features.
- Integrated Firebase Authentication, Firebase Realtime Database, Firebase Cloud Messaging (FCM), Apple Push Notification Service (APNs), and REST APIs.

Finest Tech Solutions Pvt. Ltd.

Senior Mobile Application Developer

Feb 2020 – May 2021 | Zirakpur, Punjab

Key Contributions

- Developed **Shuddhi**, **MakeMeFiit**, and **Miss Indo Asia** mobile applications using Flutter, React Native, and Native Android.
- Built scalable mobile features by integrating REST APIs, Google Maps APIs, location services, and third-party libraries.
- Implemented WebRTC-based communication features and In-App Purchase functionality where required.
- Resolved production issues, optimized application performance, and maintained released applications.

Techzuke Technology

Android & React Native Developer

May 2018 – Feb 2020 | Panchkula, Haryana

Key Contributions

- Contributed to the development and maintenance of **Bulletproof Keto Diet**, **Bulletproof Paleo Diet**, and **Winni** mobile applications.
- Independently developed **Biafra Memorial** and multiple Android utility and productivity applications for client requirements.
- Integrated Firebase Remote Config, Firebase Cloud Messaging (FCM), Apple Push Notification Service (APNs), REST APIs, and In-App Purchase functionality.

SELECTED PROJECTS

Doctome (React Native | Sole Mobile Developer) · 10,000+ downloads

[Google Play](#)

- Developed healthcare workflows and mobile features.
- Integrated REST APIs, Firebase services, and push notifications.
- Published and maintained on Google Play and the Apple App Store.

Listkeepr (React Native | Sole Mobile Developer) [Google Play](#)

- Developed the application independently using React Native and Supabase.
- Implemented authentication, backend API integration, and core application features.
- Delivered production-ready features while maintaining application performance and stability.

MyKadett (Flutter | Sole Mobile Developer)

- Developed logistics and delivery management features using Flutter.
- Integrated FedEx APIs, Firebase, and backend services.
- Delivered production-ready features and application maintenance.

Bulletproof Keto Diet (Android & React Native | Mobile Developer)

[App Store](#)

- Contributed to feature development and maintenance of a production health and nutrition application.
- Integrated backend APIs and Firebase services.
- Supported production releases and application maintenance.
